

SPEED QUEEN HARDMOUNT WASHER-EXTRACTOR

SCT030

Reimagine your laundry experience with the Speed Queen hardmount washer-extractor. This machine brings heavy-duty design with superior mechanics to form the industry's most trusted hardmount washer-extractor. With Quantum® controls, it's easy to customize your laundry operation to meet your needs. This revolutionary technology unites equipment controls, programming and revenue management into one versatile system.

Features:

- Advanced inverter drive provides smooth, reliable power.
- Leak detection saves water by detecting slow or leaking fill-valves and drains
- Four compartment dispenser.
- Quiet performance reducing sound and vibration levels.
- Front service access.
